

Modelio 3 - Issue #207

Functionality of re-ordering attributes & operations in class diagram or model

01 November 2014 06:37 - Ashraf Fouad

Status:	Resolved	Start date:	01 November 2014
Priority:	Medium	Due date:	
Assignee:		% Done:	50%
Category:		Estimated time:	0.00 hour
Target version:	Modelio 3.7.0		
Description			
<p>This issue has been reported against Modelio 2 in (http://forge.modelio.org/issues/25) but still I didn't find it implemented in version 3.1.2</p> <p>Requirement:After adding attributes & operations to the class, I need an option to re-order (Maybe an up & down arrow or drag & drop) whatever you see is doable & easy or friendly to use, and this should affect in class diagrams related to it in a simple way not to unmask the element & then mask again as mentioned in forums as workaround (http://archive.modeliosoft.com/en/support/forum/uml-modeling/357-refreshing-a-class-diagram.html#358)</p> <p>Thanks for your effort in making this great software.</p>			

History

#1 - 11 July 2017 13:59 - Antonio Pedro

- Status changed from New to Resolved
- Target version set to Modelio 3.7.0
- % Done changed from 0 to 50

It will be implemented in Modelio 3.7.
