Target version:			

Description

Problem: If You have a cyrillic "?" in the object name (class, package, etc.), You can't import XMI.

1. Make project with "?" in the name of any object
2. Export to the XMI
3. Import in Modelio 3.5.01
4. Failed: file content is not recognized as a valid model

Files attached. It works fine in 3.4.1.

p.s. It works fine with lower case of "?"

History

#1 - 29 September 2016 15:35 - Roman Rutta

Symbol = ASCII code in Win-1251 = decimal 200

#2 - 02 November 2016 17:15 - Christophe Demeulemeester

- Assignee set to Etienne Brosse

#3 - 19 December 2016 14:01 - Etienne Brosse

- Status changed from New to Assigned
